MEMORANDUM FOR: Director of Logistics, DD/L

25X1A

SUBJECT: Request for Task Assignment with the
[REDACTED]

25X1A 1. The Office of Special Activities has an urgent requirement for installation of a single-sideband radio station at one of their overseas detachments. This installation will provide additional capability for maintaining continuous communications contact with aircraft flying into or from the area. A thorough investigation has revealed this requirement cannot be met by any existing [REDACTED] stations in this area.

25X1A 2. A review of the available SSB radio equipment from several manufacturers was made by the Communications Staff, OSA. The results of this study indicated that the most satisfactory and economical adaptation to the unique characteristics of this requirement could be provided by utilization of SSB equipment designed and produced by the [REDACTED]

25X1A Accordingly, a technical proposal and cost quotation for the needed equipment was requested from [REDACTED]. This proposal is considered by the Communications Staff to be technically satisfactory.

25X1A 3. It is therefore requested that a new task order be established with the [REDACTED] under Contract 3047 in accordance with the attached documents. Requisition No. 052-H-40-62 indicates the applicable charge cost center number to be 2128-2004-3230. Funds in the amount of [REDACTED] have been encumbered for this program. Classification of the equipment to be procured is UNCLASSIFIED, but association of the Agency with the contract shall be classified SECRET. The cognizant engineer for this procurement is Mr. [REDACTED] Extension 6270.
